

NEW! EDUCATE YOUR COMMUNITY ABOUT HOSPICE

Branded Community Education Bulletin

As end-of-life care becomes increasingly accepted, hospice studies abound in many prominent medical journals, such as the *Journal of the American Medical Association*. Now you can bring highlights of these informative studies to members of your community.

Each quarter, this two-page branded bulletin features short, easy-to-read articles written in layman's terms for the general public. Summaries inform and educate using interesting statistics and positive research findings about the many benefits of hospice care.

Use this unique quarterly educational tool in waiting areas of doctors' offices, in medical lobbies, at health fairs, as an insert in your community newsletter, or even as a standalone mailer to the general public.

Bulletins are branded with your logo, spot color, tagline, contact information, and a brief description of your services.

The bulletin is created by Quality of Life Publishing Co., the leading publisher of customized clinical newsletters since 1999. Our premier publication, *Quality of Life Matters*®, is recommended as an educational resource by the American Academy of Hospice and Palliative Medicine and the Hospice and Palliative Nurses Association.

FRONT

BACK
